MEDICAL RESEARCH COUNCIL/UNIVERSITY OF CAPE TOWN

ADDENDUM TO THE NIH AIDS RESEARCH AND REFERENCE REAGENT REPOSITORY REGISTRATION AGREEMENT AND REAGENT REQUEST FORM

APPLICABLE TO Du422 CLONE 1 (SVPC5)

These materials are released to the NIH AIDS Research and Reference Reagents Repository under Release Category C.

Recipients may use these materials for research purposes only.

In the event that a Recipient wishes to use the isolate named above in a product offered for sale, in a commercial manufacturing process (including quality control procedures), as part of a fee-for-service activity, or in a sponsored research project where the sponsor is a commercial entity, Recipient agrees to notify the University of Cape Town prior to engaging in such use, in order to enter into an agreement with the University of Cape Town and the South African Medical Research Council which will set out the terms for such use. Such terms will include a provision that, in the event that a commercial product is developed, Recipient will use all reasonable endeavours to ensure that such product is made available in developing countries at an affordable cost.
